Chapter 7

Control Systems, Network and Computers

Control Systems, Network and Computers

The control and network philosophy has not changed since the description in chapter 7 of the ESS Technical Report (The ESS Project Volume III) from 2002. The technical development in this field is furthermore so rapid that any detailed plan for the technical realisation as of today will be premature for a final realisation.

The concept described in chapter 7 of ESS Project Volume III from 2002 was prepared by:

F Gournay, CEA
